2021-22 COLLECTION

It gives me great pleasure to present to you the new BabyStyle Collection for 2021-22. It has been a really exciting year for us, where we have had the chance to perfect our new designs and bring them to life.

We have been innovating across our travel category and have some fantastic new launches to share with you. Whether you're looking for an easy compact folding stroller to fit into a busy lifestyle, a practical yet stylish full travel system for those family days out, or wanting to create a dreamy nursery for your little one, you're sure to find what you need.

Born in Britain and still family owned, we work tirelessly with the very best designers and manufacturers across the globe, to bring you both innovative and contemporary designs, along with some more traditional and classical looking designs.

Our mission is simple - to develop quality products that really have the wow factor, whilst never compromising on safety, comfort, affordability, functionality and style.

On behalf of everyone at BabyStyle, pictured here as little ones, I'd like to wish you all the best in your new parenting adventure, and hope you enjoy the new collection.

CAR SEAT SAFETY

For those just starting out, parenthood is a beautiful and wonderfully rewarding way of life; amongst all the exciting experiences ahead though there are some daunting ones, not least choosing the right car seats for your children.

Belted VS ISOFIX

Always use a 3-point seatbelt if used in a road vehicle. This will keep the car seat secure during transit (unless it is being used in an exemplified circumstance for example in a taxi, on a bus or on an aircraft).

ISOFIX car seats usually also have fitting guides for 3-point seatbelts in the event a vehicle does not have ISOFIX points.

Can be clicked on to an ISOFIX base, which is in turn secured to the vehicle using ISOFIX points (usually found between the car seat and backrest).

A SECURE FIT

The car seat is physically attached to the vehicle and not relying on the inertia of the seat belt.

CLICK-ON/OFF

Convenience for parents as using a seat belt can take time to fit properly.

VEHICLES WITH ISOFIX

Most new vehicles are likely to have Isofix, but it is always best to check with the vehicle manufacturer.

Our Role

Europe is leading the field in safe road travel, and as an active member of the British Baby Products Association, it is our responsibility to work with our peers to improve car seat safety.

What is i-Size?

Recognising the importance of correct muscular growth as well as the safety, security and comfort of a child during transit, i-Size is a measurement scheme that takes into account the height of a child (cm), as opposed to governing their suitability on weight (kg) alone.

Models are also tested to a higher level of safety and provide an increased level of protection around the head and neck area. The i-Size regulation also imposes mandatory rearward facing travel up to 15 months.

By September 2022, all new car seats must adhere to i-Size guidelines.

DUOFIX i-Size BASE

£120

By Your Side, All The Way

Designed to offer optimum safety performance, convenience and comfort, the Oyster Duofix i-Size is an Isofix base that is compliant with the latest regulations in European car seat safety (i-Size - ECE R129).

As an ISOFIX base offering click 'n' go functionality, the Duofix i-Size is easy to install and employs a red to green notification system to ensure a secure fit.

For stability, the base has an adjustable leg, which can be folded in for storage as well as a rebound bar which is designed to prevent upward movement and excessive pivoting in the event of a collision.
