Emmalunga®

SINCE 1925

WELCOME TO EMMALJUNGA - Since 1925

Emmaljunga has been manufacturing strollers in the same location since 1925 in Emmaljunga, Sweden. Today we are proud to call it the world's oldest, active stroller factory. A family business in the 3rd generation.

We have made a conscious choice to maintain production in Sweden and Europe and invest large amounts each year in product development and environmental investments in our Swedish factory. Therefore, we will never be able to mass produce strollers in the lowest price range.

In a time of mass production, strong brands stand for more than just excellent quality. Our customers and suppliers appreciate our responsibility and commitment that goes before growth and market shares.

Our core values of **safety**, **quality** and **sustainability** have made Emmaljunga a beloved brand in large parts of the world.

We are proud that we have been able to maintain our craft tradition in Sweden. We have been able to maintain quality control, competence and workplaces in Europe and offer our customers sustainable products of the highest quality.

NXTTWIN

Revolutionary sibling stroller

REVOLUTIONARY

NXT Twin

Be ready for anything.

Engineered for comfort, durability and outstanding handling, NXT Twin is a dream to push. The innovative design gives you the opportunity to put two full-size seat units or carrycots side by side, while maintaining unparalleled driving comfort. With large wheels and an air-assisted, Magnesium enforced suspension, every ride becomes a little more comfortable - no matter the terrain.

NXT Twin

Unparalleled driving comfort with a strong, robust chassis. NXT Twin is the revolutionary sibling stroller with a uniquely practical design.

Why you will love NXT Twin:

- Combine freely between NXT seat units and carrycots
- Possibility of two seats with a flat lying position in both directions
- Air assisted suspension
- Spacious shopping basket
- Compact fold

If you already have a NXT stroller,

use your current seat and carrycot and just add a NXT Twin chassis to get an outstanding sibling stroller.

**Combine your NXT Twin
the way you want:**

NXT FUNCTIONS

ERGO-SCOPE HANDLE

Ergonomic for adjustment to desired height and legroom.

TELESCOPIC HANDLE

Telescopic handle with wide range for both tall and short parents.

COMFORTABLE HANDLE

A soft, leatherette handle with contrast stitching and safety strap.

REVERSIBLE SEAT

Your child can face away from you if they're in discovery mode, or face towards you for eye contact.

ERGONOMIC SEAT UNIT

NXT ERGO
Ergonomic, lightweight and comfortable seat unit, adjustable in four positions.

ADJUSTABLE FOOTREST

NXT ERGO
Whether your child is sleeping or sitting up, the footrest can be adapted to their needs.

HOOD WITH SUNSHADE AND MOSQUITO NET

The hood that provides protection from the sun and insects. Can be attached to both the carrycot and seat unit.

SEAT UNIT WITH FULL LIE FLAT POSITION

NXT FLAT
You can use the full lie flat position with built-in Safe-Frame™ so your child rest comfortable on the way.

ADJUSTABLE FOOTREST

NXT FLAT
Whether your child is sleeping or sitting up, the footrest can be adapted to their needs.

CARRYING HANDLE

Easy to carry and to click on your chassis.

FOLDABLE CARRYCOT

The NXT Carrycot can be simply folded for easy storage.

SOFT CARRYCOT MATTRESS

Its washable interior, soft mattress and practical zip on the apron make the NXT Carrycot a winner.

REMOVABLE FRONT BAR

Remove the front bar completely or partly for easier access.

QUICK RELEASE SYSTEM

The wheels and axles can be easily removed to make the stroller more compact when folded.

SUSPENSION

Barely visible, but both you and your child will notice the difference on every stroll.

SAFE AND SECURE BRAKING SYSTEM

Easy to use brake pedal for safe parking.

SWIVEL, LOCKABLE WHEELS

The front, swivel wheels can also be locked into position for challenging terrain.

COMPACT, FOLDABLE CHASSIS

Strong, reliable aluminium design that can be folded compact for easy storage and transportation.

NXT90^e INTELLIGENT

Enhanced safety and comfort. Emmaljunga presents the intelligent and intuitive electrical eStroller in cooperation with Bosch.

NXT90e

"We've finally found a solution to offer you luxury and excitement and enhanced safety when strolling uphill, downhill or on an inclined plane."

Intelligent eStroller

A new era of strollers is here: meet Emmaljunga NXT90e electrically powered eStroller. The groundbreaking intelligent and digital connected eStroller is e-powered by Bosch. Designed to handle the unique needs of parents - intelligent uphill or downhill support and uneven surface support. An amazing stroller that feels what you want to do and supports you.

With the NXT90e, Emmaljunga offers enhanced comfort and safety – and a lot of fun.

Intuitive technology, innovative design

The model responds intuitively, impresses with its innovative design & enhances added safety and comfort in every way. The degree of electrical support can be set via an app and adapted to individual needs.

NXT90e offers increased comfort

The eStroller is equipped with two electric motors developed by Bosch, which facilitate pushing on slopes and with heavy loads. The silent intelligent engines are equipped with sensors and algorithms that detect the type of surface on which the stroller is traveling on: the NXT90e provides pushing assistance - it assists to brake going downhill and supports its users when travelling uphill if they are connected with the Smartphone App. Even loaded after shopping there is hardly any additional effort when pushing.

Increased safety - automatic brake

The system brakes automatically when you let go the handle and the stroller rolls without the intervention of the user. In addition, the model has an alarm function that can be activated if necessary to warn of unauthorized users and to prevent thefts. Especially practical: The entire system can be conveniently controlled via an app that connects to the eStroller via Bluetooth and provides system information and battery status.

Modern and stylish design - digital and practical

Emmaljunga NXT90e eStroller also impresses visually: Its innovative, modern design makes it an absolute eye-catcher on the road: groundbreaking technology and design. The model also has additional smart features. For example, discreet LEDs on the wheels indicate the respective driving status and the smartphone can be charged via a USB port.

RETAILERS

- *Quality is something you can feel*

What is good to think about?

Our advice is to go through the wishes and requests you have for your stroller, to really find a model suitable for your lifestyle and the needs of your family - both today and in the future.

You will use your stroller almost every day in the coming 3 years.
